

SPECIALTY MEDICATIONS

Specialty medications are treated differently because they require special handling and often are associated with more complex dosing or need extra treatment support, and are typically more expensive.

Our specialty pharmacy partner is here to support you with the care and medications you need every step of the way. The list of medications provided below includes those medication that are part of our Specialty Patient Care Program.

If you are approved to start or are already taking a specialty medication on this list you can sign up for the Specialty Patient Care Program to receive complimentary treatment support:

- A Patient Care Specialist will reach out to you to coordinate support.
- Reimbursement specialists, clinical pharmacists, dietitians and other care support professionals are available as appropriate to meet your needs.
- Shipments of your medication will be scheduled to be delivered to your door at a time that works for you.

How do I get my Specialty Patient Care Program Started?

Call **(206) 413-9371** to connect with our Specialty Patient Care Program delivered by our Specialty Pharmacy partner.

Approval Requirements for Specialty Medications

All specialty medications require a prior authorization review by Prescriptive before these medications can be dispensed and your Specialty Patient Care Program can get started. Only a written approval will guarantee coverage of medications requiring prior authorization.

How Do I Get a Prior Authorization Review Started?

To initiate prior authorization, your health care provider needs to initiate the request by downloading and filling out the Prior Authorization Request Form found at www.prescriptive.com/prescriber.

Your prior authorization review will be initiated once the form is faxed into our secure system.

SPECIALTY MEDICATION REFERENCE LIST

Below is a list of specialty medications covered by your plan after a prior authorization review. Quantity limits may also apply. This list is intended only as a guide to coverage. We encourage you to talk to your doctor about all of your treatment options.

Your benefit plan may have a different co-pay or co-insurance coverage for specialty medications. To learn more about your benefit plan coverage, check your specific plan documents available by logging in to your member portal at www.prescriptive.com/member.

Please note: Pharmacy products and services covered by a plan member's benefit plan may change from time to time. Some products and services may not be covered under a specific member's plan design. The information provided here is for general information purposes only and does not guarantee coverage. Some pharmacy products and services require prior authorization before they are covered. Only a written prior authorization approval will guarantee coverage for such products and services. To ensure coverage, members should reference their specific plan documents at www.prescriptive.com or contact Prescriptive Member Services at the phone number on their member ID card.
