

PRIOR AUTHORIZATION (PA) MEDICATION LIST

Effective January 1, 2024

Prior Authorization supports coverage of safe, effective, and high value medications, and helps you and your doctor choose quality medications that provide the most value for improving your health.

Medications on this list require approval prior to your health plan covering the medication. Only a written prior authorization approval will guarantee coverage for such products, and quantity limits may apply.

How Do I Get Approval for a Medication on this List?

- Step 1. You and your healthcare provider consider all treatment options and decide a medication on the list below is the correct treatment for you.
- Step 2. Your healthcare provider fills out a Prior Authorization Request Form. This form can be found at www.prescriptive.com/resources.
- Step 3. Questions? Call Prescriptive Member Services at the phone number on the back of your Member ID card.

How Will I Be Informed of My Approval?

You will be notified of your approval or denial through the mail. We will send a letter by mail to the address on the request or, if no address is included, the physical address we have on file for you. Letters are sent to both you and your requesting provider.

The notice will include:

- Rationale for the approval or denial.
- Detailed review criteria or benefit provisions used in the determination, and instructions for how to obtain a copy of the review criteria.
- Details about how to initiate a member appeal.
- Information about how a provider can contact the reviewer regarding how the decision was made.

Please note: The information provided here is for general information purposes only and does not guarantee coverage. Pharmacy products and services covered by a plan member's benefit plan may change from time to time. Some products may not be covered under a member's specific benefit plan. To confirm your coverage, reference your specific plan documents by contacting Prescriptive Member Services at the phone number on your Member ID Card.

MEDICATIONS REQUIRING PRIOR AUTHORIZATION

Category	Medication	Status
ADHD/Anti-Narcolepsy/Anti-Obesity/Anorexiant	Imcivree	Preferred
ADHD/Anti-Narcolepsy/Anti-Obesity/Anorexiant	Saxenda	Preferred
