

PREFERRED GENERIC AND BRANDED MEDICATIONS

emPowered Drug List

Effective January 1, 2025

This **Preferred Drug List** is regularly updated, but it may not reflect your specific plan coverage. Please contact **Prescriptive Member Services** at the number on your Member ID card for the most up to date drug benefit or coverage information.

Prescription Coverage

Your plan covers drugs on the emPowered Four Tier Drug List. This list of covered medications provides a guide for plan members and their healthcare providers to finding more cost effective, FDA approved medications.

Choosing Your Pharmacy

Filling Your Prescription at a Network Pharmacy

You have access to Prescriptive's nationwide network with thousands of participating pharmacies. To have your medication covered, you will need to use a participating pharmacy and show your Member ID card before purchasing your prescription. If you go to a pharmacy not in the network, the cost of your prescription may be higher and not fully covered, and you may need to pay for the prescription in full, and then manually submit for reimbursement using the **Direct Member Reimbursement Form**.

Log-in to your member account at www.myprescriptive.com to use the searchable pharmacy tool to find a pharmacy that is part of the Prescriptive nationwide network. Or, call Prescriptive Member Services at the number on the back of your Member ID for assistance.

Home Delivery/Mail Order

Most retail pharmacies can fill up to a 90-day supply of maintenance medications. It is your choice to use home delivery as a convenient way to ensure you maintain your supply of any maintenance medications you are taking. For more information about our home delivery or mail order service visit our website or call Prescriptive Member Services at the number on the back of your Member ID for assistance.

What is a Four Tier Drug List?

Please refer to your benefit plan summary for more information about your specific benefit. With the Four Tier Drug List, the covered prescription medications fall into one of four cost levels or tiers, as outlined below. What you pay will depend on which tier your medication is in. Your benefit summary documents will provide the cost to you for each of the four tiers. **To help you save money, ask your healthcare provider to consider the following when selecting a course of treatment:**

- **Consider prescribing a generic medication (Tier 1) as a first option.**

•If there is no generic available, there may be more than one brand name medication to treat a condition. When clinically appropriate, consider one of the **preferred** medications (Tier 2) identified on this list for a more cost-effective choice.

Some Preventive Medications (Tier 0) including some over-the-counter drugs, devices and other products approved by the Federal Food and Drug Administration are fully covered at no cost to you, the member, when purchased through a participating pharmacy with a written prescription. To learn more about **Preventive Medication** coverage visit our website at www.prescriptive.com/resources.

Tier Level	Description
Tier 1 Lowest Member Cost	Generic drugs.
Tier 2 Lower Member Cost	Preferred brand drugs.
Tier 3 Higher Member Cost	Non-preferred drugs.
Tier 4 Highest Member Cost	<p>Specialty Medications usually cost more than other brand name drugs. Specialty medications are high cost, self-administered drugs that are used to treat rare or complex medical conditions. Specialty drugs require prior authorization before they are covered and must be filled through our designated specialty pharmacy.</p> <p>For more information about Specialty Medications contact Prescriptive Member Services at the number listed on the back of your Member ID card.</p>

Note: **Tier 0** medications are covered at no cost to members (\$0 copay) as mandated by the federal Affordable Care Act (ACA).

Covered Drug List: Definitions

Before looking at the Covered Drug List below, it may be helpful to understand what each column in the list means. The following section covers definitions for each column.

Prior Authorization

You may see PA required as a column in the below chart. PA means Prior Authorization. Prior Authorization supports coverage of safe, effective, and high value medications, and the process helps you and your doctor choose quality medications that provide the most value for improving your health.

Medications on this list require approval prior to your health plan covering the medication. Only a written prior authorization approval will guarantee coverage for such products, and quantity limits may apply. Read on to learn more about the Prior Authorization process.

How do I get approval for a medication on this list?

- Step 1. You and your healthcare provider consider all treatment options and decide a medication on the list below is the correct treatment for you.
- Step 2. Your healthcare provider fills out a Prior Authorization Request Form. This form can be found at www.prescriptive.com/resources.
- Step 3. Questions? Call Member Services at the phone number on the back of your Member ID card.

How will I be informed of the outcome of the Prior Authorization process?

You will be notified of your approval or denial through the mail. We will send a letter by mail to the address we have on file for you. Letters are sent to both you and your requesting provider.

The notice will include:

- Rationale for the approval or denial.
- Detailed review criteria or benefit provisions used in the determination, and instructions for how to obtain a copy of the review criteria.
- Details about how to initiate a member appeal.
- Information about how a provider can contact the reviewer regarding how the decision was made.

ACA Drugs

ACA stands for Affordable Care Act. Medications identified in the ACA column are covered at no cost to members (\$0 copay).

Healthy Value Drugs

These are maintenance and preventive medications that can help prevent many illnesses and conditions for people who have certain risk factors. These medications are different from the list of preventive medications mandated by ACA (previous definition) to be covered by health plans at no cost to members.

Some benefit plans may provide different coverage for Healthy Values Drugs. Under some plans you may not need to pay a copay, coinsurance and/or deductible for these medications. Check your plan documents to determine your benefit coverage. If your prescription benefit plan provides coverage of maintenance or preventive medications prior to meeting your deductible, you may pay less or perhaps nothing for the medications on this list, which may help you save money and stay on your treatment plan.

Specialty Drugs

Specialty medications are indicated within the Specialty Drug column on this drug list. All specialty medications are managed and dispensed by the Specialty Pharmacy network and will require a Prior Authorization before these medications are covered under your benefit plan. With written approval, your plan will cover a portion of the cost of these medications as detailed in your benefit plan document, along with the support services provided by the Specialty Pharmacy care team to help with your treatment success. To learn more visit www.prescriptive.com or call the Member Services number on the back of your Member ID for assistance.

Covered Drug List

The following list provides the tier coverage of each drug, along with any prior authorization requirements and step therapy requirements. Refer to your Benefit Plan Summary to understand how much your cost will be for each medication based upon its Tier classification.

Please note:

- Pharmacy products and services covered by your benefit plan may change from time to time. Some products and services may not be covered under a specific member's plan design. The information provided here is for general information purposes only and does not guarantee coverage. Some pharmacy products and services require Prior Authorization or Step Therapy before they are covered. Only a written authorization approval will guarantee coverage for such products and services. To confirm your coverage, reference your specific plan documents by contacting Transcarent Pharmacy Care at the phone number on your Member ID card.
- Over-the-counter (OTC) drugs and OTC equivalents are excluded from your benefit plan. If there is a dosage of an OTC medication not available over the counter, it may be covered and included in this Covered Drug List.
- The information provided in this document is not intended to, and does not modify or replace, any terms of your prescription drug benefit plan as recorded in your official plan documents. In the event of any conflict between this document and your official plan documents, the latter shall be controlling.
